DETAILED ACTION

In response to the restriction requirement, the Applicant elected claims 26-27 for further examination. As a result of Elections dated 9/10/2008 and 6/05/2008, claims 1-25 and 28-32 are withdrawn from consideration.

Drawings

New corrected drawings in compliance with 37 CFR 1.121(d) are required in this application because the drawings filed on 9/10/2003 are informal. Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.

Claim Objections

Claim 25 is objected to because of the following informalities: Claim 25 is mentioned in the Election dated 9/10/2008 to be cancelled. The Applicant thus please indicates the status identifier of the claim to be "Cancelled". Appropriate correction is required.

Claim 27 recites the limitation "the ambient temperature" (on line 2) with insufficient antecedent basis for this limitation in the claim.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

Art Unit: 2853

1. Claims 26-27 are rejected under 35 U.S.C. 102(a) as being anticipated by Kanaya et al. (US 6517175).
